MageINIC

Quantity

- With the help of this extension, the customer can expeditiously edit the quantity of a product
- The quantity box is displayed at the storefront on the product page.
- The button can also be exhibited in the mini cart.
- Additionally, the purchaser is also capable of altering the number of products from the shopping cart page
- Only by enabling the extension from the backend panel, the quantity increment decrement box will be indicated on the storefront.

Ultimate Guide for Magento 2 Quantity

Introducing Magento 2 The Quantity Increment Decrement lets users easily edit the quantity of the product. They can increase and decrease the amount by tapping the "+" & "-" buttons respectively. The quantity box is also represented in the mini cart and the shopping cart other than the product page.

- This module is very helpful in increasing and decreasing the quantity of the products without going to the cart page. Customers can see the button on the product list of various modules.
- Please Specify the pages where you need this functionality.
    1. Listing page
    2. Detail page
    3. Cart page
    4. Checkout page
    5. Related product
    6. Cross-sell product
    7. Up-sell product
    8. Wishlist product
    9. Compare product
    10. Widget page
- Hide/Show the Button on the default pages like Product Detail Page, Wishlist Page, Compare Page, etc.
- Easily Change Quantity from the Shopping Cart Page Did you forget to modify the quantity on the product page? No need to get back to the product page to modify the quantity. Just operate the increment and decrement buttons from the shopping cart page.

Allow Customers to Change Quantity. Anytime! Anywhere! Offer the freedom to your buyers to modify the quantity from a product page, mini cart pop-up, or shopping cart page.

How to install the extension

1. Upload via ZIP/Archive

- Back up your store's database and web directory
- Download the extension zip file and extract the zip file
- Transfer the **app** folder to the **Magento2 root** directory on the server
- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **php bin/magento module:enable MageINIC_Core MageINIC_Quantity**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.
